HOW TO MAKE BERKSHIRES,

The Editor of the Louisiana (Mo.) Press, in relating what he knows about farming, touches up the hog question in this style: "To make Berkshire pigs out of your hazel splitters, select a cool day, stand them on their hams, tied to a sapling, and drive their noses back into their shoulders, leaving about an inch protruding. If you look at the agricultural papers you will see that all blooded hogs are fixed that way. If you have any whose noses are longer than the rest of the body, better sell them to an artesian well company for drills, as you cannot drive he nose back without telescoping the whole rig. A GIRL'S DIARY.

A Rockland County, N. Y., girl, who was recently "finished" at a fashionable seminary, has begun a diary. Her mis chievous young brother cut out the first entry, and it got into print. Here is a portion of it: "Sunday Night:-It has just struck twelve and I am still writing. What are these thoughts that surge across my heart? What is this strange longing after the unattainable? Am I what I really seem, or is it, as it were, not so much the infinitesimal as the unspeakable? Let me be calm. I have read 'Don Juan' to-day. Ah

will there ever be another Byron? May there not be somewhere, coming toward me from the mist of the nountain top, or the flowers of the valey, somé sun-crowned youth, who-"

DECATUR, ILLINOIS: Monday Evening, Feb. 8.

Judging from the fact that from three to a dozon persons call at the News office every day and ask, "Did you get a Decatur daily this morning?" we conclude that these papers are in demand, and that from three to a dozen persons aforesaid ought to subscribe for either the Magnet & Tribune, or the REPUBLICAN, or both. We have no objections to their reading our copies of those papers so far as we are personally concerned, for isn't a printing office a public reading room anyway, and isn't it a fact that an editor has no right that other people are bound to respect? But we fear that if our copies of the Deca tur dailies are made to do duty for a dozen different men, that we are thus made the innocent cause of keeping several ducats from the pockets of our Deto be forced to sorve in that miscrable capacity, we indite this item as a gentle hint that the Decatur dailies are well worth more than the price of subscription, and that Maroa folks that want daily news from the county seat, should sponge on their neighbors. - Maroa

MR. ROBERT T. HUNTER, a sample Louisiana conservativo, on being pressed by the Louisiana investigating com-mittee, swore that "the official votes lently returned and counted." On being asked whether he didn't think it "a little steep" to take up arms and plunge the state in civil war for the of the pry aggrieved, or a judgment purpose of scating a man whose votes were admitted to have been to a large extent fraudulently returned and counted, Mr. Hunter replied: "I have always believed that the white men were a majority, and, in spite of the frauds of Warmoth in 1872, the white people honestly carried the state." So it appears that in Mr. Hunter's opinion, if a man believes that a candidate receives n majority of votes, he is justified in going to war and shedding blood for that candidate, no matter what the official returns may be, or how impossible it may be to ascertain the actual result of the election. That may be a very good theory for the turbulent Spanish republics, but it isn't exactly popular in the United States .- Chicago

WE confess much doubt as to the wisdom of attempting to fortily the administration by extraordinary appropri ations to cover two years. Democrats talk glibly about "blocking the wheels of government" by refusing appropriations, but we strongly suspect that they will not commit political suicide in exnotly that way. Public opinion would not sustain any such measure, and there must be among them leaders shrewd enough to know that when a party chooses the very last resort, the most extreme and revolutionary measures short of armed revolt, it will be terribly overthrown, unless public opinion clearly and strongly sanctions its course. If the Democrats dare to refuse the usual appropriations, let them

The one thing necessary for Republicans now is to satisfy the country that they are able and willing to deal with cessfully. They must make the country understand that there is no disposition whatever to uphold an illegal government because it is Republican, or to shield any secundrel because he claims the Southern question fairly and sucto belong to that party. They must satisfy the country of their intention to give all reasonable and possible redress grievances, and at the same time to protect all citizens in the enjoyment of their rights .- St. Louis Democrat.

The State officers were certainly elected by a majority of the votes east. The State has been as peaceful since the new government as it has ever been. There is a class of men which delight Northern people of their rights. This class of men, together with the general custom of carrying deadly weapons, are

The prosperity of Southern States depends more on just and stern dealing by them with the lawless class of men than on anything else. The officers were about as much astounded as were the gamblers themselves. The former hardly expected to have nine desperate-characters, all armed, to arrest, while the latter had little thought or being interrupted in their nefarious business. At the PRESBYTERIAN CHURCH the pulpit was occupied by the pastor, who in the evening preached an interesting and impressive sermon from the words, "Sirs, we would see Jesus." The sermon was one which the pastor preached some three months ago, and was repeated last evening by request. In his introductory remarks the speaker alluded to the fact of Christ being rejected by At the St. Nicholas Hotel the follow the Jews, and cagerly sought by Gentiles. Being puriely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely for their protection and relief, when required. Long experience has proved them to be the safeet, surest, and best of all the PHIs with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and situgish are cleaused by Aper's PHIs, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitutes who enjoy it, can hardly be computed. Their sugar coating makes them ples sant to take, and preserves their virtues unimpaired for any longth of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without distantance to the constitution, or diet, or occupation.
